“Man løser ikke **dynamiske** problemer med **statiske** løsninger”

Citat: Christian Adelhardt, Energinet

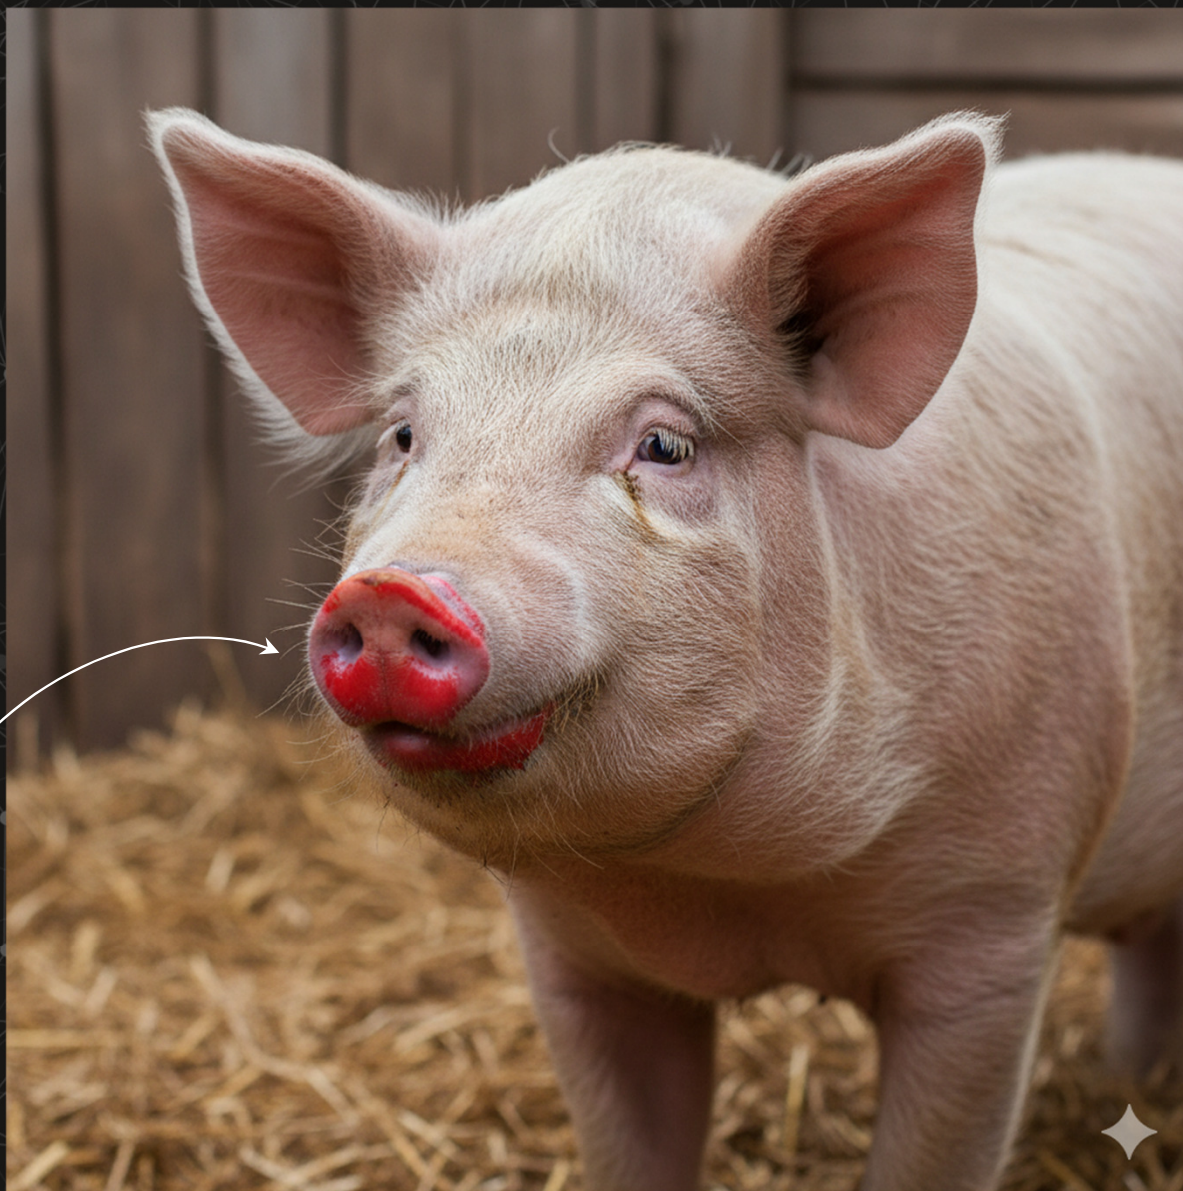

Energisystemet hænger sammen

An abstract graphic featuring a light pink background. In the center, a translucent purple pyramid points upwards. From the apex of the pyramid, several streams of colorful particles (red, green, blue, and black) flow outwards and upwards, resembling water or data streams. The particles are concentrated along the paths of the streams. A dark grey horizontal band is positioned across the lower half of the image, containing the text.

For at
løse del-problemer
skal vi
forstå helheden
i energisystemet

AI skal hjælpe med at træffe de gode
beslutninger

A surreal landscape featuring a large, gnarled tree with a dense canopy of small, glowing blue and purple lights. The tree stands on a sandy, light-colored ground. To the left of the tree are several large, dark, jagged rocks. In the background, there are vertical, translucent, light blue and purple structures that resemble pillars or walls. A small, dark figure of a person is visible on the ground near the base of the tree. The overall atmosphere is dreamlike and ethereal.

Tak for jeres tid
